

# The GRC Professional Training Course

## Governance, Risk Management and Compliance Training & Certification

Straits Interactive and Singapore Institute of Directors are pleased to introduce the GRC Professional Training Course, a first-of-its-kind course in Singapore. Under license from the Open Compliance & Ethics Group (OCEG), the course helps individuals develop a core understanding and the necessary skills to integrate governance, risk management and compliance in one capability.

The three-day course comprises:

- a hands-on workshop with practical case studies,
- real life example exercises while incorporating world-wide best practices,
- a project on the design of an integrated GRC capability across your organisation.

Course attendees will be provided with the OCEG GRC Capability Model, relevant templates, tools and one-user licence GRC software, \*GRACIAs, for easy tracking and reporting to set up their own GRC capability.

This course prepares participants to successfully pass the GRC Professional (GRCP) certification exam and become individually certified as a GRCP. The GRCP certification shows the individual has the core understanding and skills to integrate corporate governance, risk management, internal control and compliance activities.

*\* GRACIAs is worth S\$5000 and the license is valid for one year.*

### Benefits of Certification

- Obtain the only internationally recognised GRC individual certification, backed by OCEG, the international standard setter in GRC and the organisation that defined GRC
- Gain recognition and respect as an expert in governance, risk management and compliance
- The GRC Professional is the only individual certification that combines the disciplines of governance, risk management and compliance into one certification
- No specific education or work experience requirement for the certification

***"I wish I could have done this course much earlier. Performance management is more holistic than just risk management, audit."***

*- Timothy Soh, Head (Risk Management)*

### Ideal for

- Internal auditors
- Compliance professionals
- Governance professionals
- Risk management professionals
- GRC professionals
- Legal professionals
- IT professionals dealing with GRC
- Managers responsible for GRC activities
- Executives and board members
