The inaugural Best Risk Management Award was launched at the Singapore Corporate Awards in July 2019. This award was established to recognise companies that have demonstrated adequate and effective risk management practices and to raise awareness of core and leading risk management practices.

As the business environment continues to be dynamic and fast paced, due to technology, innovation and disruption, it is integral for companies to continuously balance risk and reward decisions, with speed and integrity – failure to protect but also grow the company can significantly impact the long-term sustainability and relevance of the company.

### Objectives

1. Learn more about key elements and indicators of adequate and effective risk management and internal control disclosures and practices.
2. Take away practical lessons and insights from a selection of award-winning companies.
3. Understand key risk management focus areas, opportunities to enhance risk management and ways to overcome key challenges.
